Unit, the Digital Team, Digital Preservation Sector, the Tech Infrastructure and Development, Multimedia and the Communication and Public Relations Sector Lead.

Key Responsibilities

- Oversee the staff in the digital library, such as the physical repository & online resources officer, digital library metadata officers
- Respond to user questions in a timely and professional manner, providing expert research assistance and instruction when needed
- Manage all aspects of the digital library's operations
- Submit Annual, Monthly, and Weekly Plans
- Stay up-to-date on current and emerging technologies, trends, and issues related to digital libraries
- Develop and implement policies and procedures for the digital library
- Organize and manage digital collections
- Train new staff and users on the use of digital library resources and technologies
- Assume responsibility for proper management, and oversee and verify all work associated with it.
- Ensure both the quantity and quality of work is completed, monitor and consult with staff, handle the staff's monthly performance, and prepare reports.

Competencies and Skills

Technical skills: Digital Library Managers need technical skills to manage digital information and digital resources. They need to understand how to use and troubleshoot computer systems, software and hardware. They also need to understand how to manage digital files and digital storage.

Communication skills: Digital Library Manager communicates with patrons and other staff members on a regular basis. They use verbal and written communication skills to explain technical information to patrons and to answer questions from other staff members. They also use communication skills to create and send emails, make phone calls and write reports.

Problem-solving skills: Digital Library Managers often use their problem-solving skills to troubleshoot technical issues and resolve other challenges that arise in the workplace. They may also use their problem-solving skills to develop new processes or procedures to improve the efficiency of their team or the library as a whole.

Organization skills: As a Digital Library Manager , you may be responsible for maintaining digital files and records. This requires organizational skills to ensure the files are properly sorted and stored. Organization skills can also help you keep track of digital files and records, ensuring they are properly stored and backed up.

Research skills: As a Digital Library Manager , you may be responsible for researching topics for blog posts, social media posts or other digital content. Your research skills can help you find the information you need to create engaging content for your audience.
